

## Seminar Series Fall/Winter 2013/14

- Oct 31      **Nsikan-George Eman**, BiK-F, International Climate Protection Fellow (Humboldt Foundation)  
“Can improved knowledge in decadal predictions and projections of regional climate change support forest ecosystem management in Akamkpa of Cross River State, Nigeria?”  
Hosted by J. Krohmer
- Nov 7      **Lutz Kunzmann**, Senckenberg Dresden, Palaeobotany  
“Tertiary’ vegetation and climate change: the fossil plant perspective”  
Hosted by E. Niedermeyer
- Nov 14     **Thomas Müller**, BiK-F, Goethe Universität  
“Movement ecology: From individual behaviors to biodiversity conservation”  
Hosted by S. Pauls
- Nov 21     **Wolfram Graf**, BOKU, Vienna  
“The role of taxonomy in modern biodiversity research”  
Hosted by S. Pauls
- Nov 28     **Martin Plath**, Unit of Ecology & Evolution, Goethe University  
“Adaptation and speciation along ecological gradients.”  
Hosted by I. Schmitt
- Dec 5      **Luis Valente**, Imperial College London / Potsdam  
“Assembly of oceanic island biotas over evolutionary time scales”  
Hosted by J. Schnitzler
- Dec 12     **Christian Printzen**, Senckenberg, Botany & Molecular Evolution  
“Around the world and back again: ancestral areas and range shifts of polar lichens”  
Hosted by S. Pauls
- Dec 19     **Niels Blaum**, University of Potsdam, Plant Ecology & Nature Conservation  
“Dynamics of biodiversity in savannas from genes to communities”  
Hosted by J. Krohmer, S. Pauls
- Jan 16     **Ruth Müller**, BiK-F  
“Interactive effects of pesticides and climate on aquatic species and communities  
- Sum up of AdaMuS AQUA”  
Hosted by S. Pauls
- Jan 23     **Vera Holland**, Goethe University, BiK-F  
“Carbohydrate accumulation during leaf senescence in different oak species”  
Hosted by I. Schmitt
- Jan 30     **Simon Scheiter**, Goethe University, BiK-F  
“African savannas - past and future”  
Hosted by T. Hickler, S. Pauls
- Febr 6     **Tomaso Bontognali**, ETH Zürich  
“New creatures from the darkness”  
Hosted by E. Niedermeyer
- Febr 13    **Rüdiger Wagner**, Kassel University  
“Dominierende und ordnende Umweltvariablen in einem Fließgewässerökosystem”  
Hosted by S. Pauls
- Febr 20    **Christiane Fischer**, BEO - Biodiversity Exploratory Office  
“Exploratories for large-scale and long-term functional biodiversity research (Biodiversity Exploratories)”  
Hosted by J. Krohmer, S. Pauls

**Thursdays @ 4 PM in Wallace (GVS)**
